Education

2021 - 2022	Rzeszów University of Technology, Faculty of Computer Science Master's Degree in Computer Science Specialization: Programming
2017 - 2021	Rzeszów University of Technology, Faculty of Computer Science Bachelor's Degree in Computer Science (Engineer) Specialization: Programming

Professional Experience

2021 - now    **Java Developer**  
Comarch Telecommunications

- Responsibilities:
- Implementing new features and modifying existing ones based on client requirements.
  - Upgrading versions of technologies such as Java and other related tools.
  - Integrating applications with external systems using REST/SOAP APIs.
  - Monitoring application performance and providing ongoing support for reported issues.
  - Conducting security analysis for both frontend and backend, leading to the introduction of additional protections, such as CSP and cookie flags.
  - Migrating applications to Docker.
  - Deploying applications to production alongside other teams and providing support for any arising issues.
  - Creating an administrative panel in Angular for user management.
  - Analyzing new business requirements with the team and client analysts.
  - Writing tests and documentation for developed features.

2019    **Internship, Frontend Developer**  
SoftSystem Sp. z o.o.

Focused on learning web application development with Angular. During the internship, developed a company management system integrated with an API built using Spring Boot.

Hobbies and Interests

**Programming:** I continually work on expanding my knowledge; recently, I completed a book on web application security.

**Physical Activity:** I maintain a healthy lifestyle through running and playing badminton.

**Chess:** I have been interested in chess for several years. Although I mostly play online, I participated in an in-person tournament in 2023. Chess helps me develop strategic thinking and decision-making skills under time constraints.

I hereby give my consent for the processing of my personal data for the purposes necessary to carry out the recruitment process, in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (GDPR).
